

Heritage Stepped

Aluminium Heritage Windows

A ROOM WITH A VIEW

The Heritage Stepped Look Window

The Heritage stepped look window system is a thermally efficient replacement for steel windows. These stepped windows use the latest technology and are still a fraction of the cost of steel windows. Our Heritage windows use a modern 'Polyamide' thermal barrier giving them superior thermal performance.

Now you can easily and affordably replace your old, single glazed, rusty steel windows with non-rusting, secure, steel look-a-like windows with modern energy efficient double glazing. What's more you can do so without compromising the character of your period home. Our Heritage stepped windows will greatly improve the security and insulation of your home.

Our slim-line profile emulates the look and feel of traditional steel windows. Whether they are combined with new or original hardwood frames, or fitted directly to brick, these windows can be made to replicate your existing windows.

Features

- Standard colours include White (gloss), Black (matt) or dual Black (matt) Out White (gloss) In.
- Also available in over 200 single colours or dual colours.
